## **World’s 1st EPA Safer Choice Approved Spray Detailer** **Tri-Plex Spray Detailer Certified Green by EPA**

Freeburg, IL — June 21, 2017 — Today Tri-Plex Technical Services, Ltd. announced that Tri-Plex Spray Detailer is the 1st product of their auto care product line to be certified by the EPA Safer Choice Program. Tri-Plex Spray Detailer cleans and seals the paint while acting as a lubricant for scrubbing pads. This advanced polymer technology is a 1 step lubricant polymer sealant that repels water, enhances gloss while adding additional protection to your finish that dries crystal clear. It withstands multiple washes and you can choose between red, gold, blue, green or natural colors. This product is available in ready-to-use, 1 to 9 concentrate and 1 to 19 concentrate.

In addition to our Spray Detailer, Tri-Plex also has EPA Safer Choice Approval for Go Clean Green Guard Upholstery Protector. It was the 1st certified upholstery protector for the EPA Safer Choice program in 2009 which was known as Design for the Environment Program. It is a cutting edge soil and stain protector that neutralizes alkalinity residues and prevents yellowing.

Our Go Clean & Auto Product Line is formulated with our Earth and its inhabitants in mind. These products are biodegradable, phosphate free and contain no reportable VOC’s. This practice leads to a more positive environmental profile than standard cleaning products.

Founded in 1986, Tri-Plex Technical Services offers environmentally sensitive formulas in a cost effective way to suit your diverse needs. We are committed to offer Non-toxic, Skin Friendly products. Each Tri-Plex product is formulated to provide exceptional performance and maximum durability. Our proven formulas help autos, carpet, fabric and solid surfaces to “Stay Cleaner Longer”. Let us show you how to use products that are “Safer for you and Safer for the environment” without sacrificing quality!

#####

“EPA/Safer Choice recognition does not constitute endorsement of this product. The Safer Choice logo signifies that the product’s formula, as Tri-Plex has represented it to the EPA, contains ingredients with more positive human health and environmental characteristics than conventional products of the same type. EPA/Safer Choice relies solely on Tri-Plex, its integrity and good faith, for information on the product’s composition, ingredients and attributes. EPA/Safer Choice has not independently identified, that is, via chemical analysis, the ingredients in the product formula, nor evaluated any of Tri-Plex’s non-ingredient claims. EPA/Safer Choice provides its evaluation only as to the product’s human health and environmental characteristics, as specified in the Standard and based on currently available information and scientific understanding.”
